

Environmental Protection Statement

Our environmental policy expresses our commitment to preventing environmental pollution and to protecting the environment.

Our customers are informed about the environmental impacts of the products and advised at request.

In our purchases and projects, we pay attention to our suppliers' and subcontractors' environmental behavior, intentions, and we encourage our partners to develop their environmental protection actions.

Through various environmental trainings and regular courses, we train each of our employees to adopt environmental protection as a natural and general attitude.

Our customers are informed about the environmental impacts of the products and advised at request.

Our company conducts its activity in line with the guidelines of this environmental policy, which are mandatory guidelines for every worker for environmentally conscious work. We strive to regularly improve and develop our environmental policy.
